Region Director's Report

Greetings and happy summer. It's been a beautiful summer so far, and we're finally getting a little much-needed rain.

Our Senior event in February was hosted by Indian-head Ski Area and patrol. We had great skiing conditions and the patrol went out of their way to make us welcome. Congratulations to our new Senior Patrollers.

The Spring Meeting and Awards Banquet was held April 17 & 18 at the Waters. It was well-attended and I'd like to thank Martin Olson and Section 3 for planning a very enjoyable event, and to Marcia Locher for coordinating the awards and making sure the distribution ran smoothly. Thank you to the

instructors who put together the classes held at the meeting. All were outstanding and are a big reason our spring meeting is so well-attended. Jim Woodrum, the Division Director, attended our event again this year and was impressed with the educational opportunities we offer.

Next year's spring meeting will be held on April 15-17, NOT April 22-24 as originally planned. After our meeting we found out that we had it scheduled for Easter weekend.

Welcome to Dave Conger, who is coming back on board as an ARD.

We have a lot of opportunities for training and continuing education coming up this year. Please be sure to check out the complete calendar of events inside the Powderlines.

A reminder to all Patrol Reps to get their financial reports to their Section Chief, and that Section reports are due to Sarah Hull NO LATER than July 31.

Don't forget the Fall Division Meeting – September 9-12, 2010, Western Region, Hilton Minneapolis/Bloomington. Check your Rusty Parka News for more details. The meeting is open to any Central Division patroller and it's a great chance to meet patrollers from other regions and has great educational opportunities as well.

I'd like to ask all patrollers to visit the National website at www.nsp.org and verify your email address. This is the master list used for all Division, Region and Section officers and we want to make sure we get information out to everyone,

I want to take this opportunity to thank all of the patrols and individual patrollers for their support over this past season, especially the section chiefs, patrol reps, testers, trainers, and staff members who have put in countless hours and have been so very helpful over the past several years. I look forward to working with you again this coming season.

Tim's Traverse By Tim Zimmerman, editor

During the summer day to day activities of patrolling seem like a distant memory. During the summer months there are weeks when only the business side of patrolling is active. At times some of us complain the business of patrolling becomes too political. I suppose politics are to be expected in any organization of certain size. When a volunteer group contains 26,000+ members the group probably qualifies as one that should expect a bit of politics.

On those days when I hear such complaints I take solace in the fact there are other organizations much larger than ours with exceedingly more money at stake which ex-nization will ever experience, even on its

Often the end customer, the very person the victim of political agenda. At the risk of servants in real life I will share the story I things could be worse.

A few years ago a change in my wife's real minutes closer to our local ski mountain. We extra time on the snow each ski season, as to cash in on their expectations. I am still

We moved during late August from the small relatively larger confines of the Wausau of the ski season. We expected certain dif-kids, the need to sell the house we left in and the like. Therefore we took certain smooth as possible: visited the new school realtor to sell our house, took time to get course, used the postal service change of address kit to assure smooth transition of our mail.

Two weeks after we move to the Wausau "suburb" village of Rothschild, we have not received one piece of mail, not even the most recent sales flier from Wal-Mart. Therefore I call the Rothschild post office and the postal worker who answers the phone says, "Oh, yes, we will not delivery your mail."

I politely ask why not and the response is, "We cannot deliver to any more addresses. We are full."

"But you are the post office and you are supposed to deliver mail."

"Yes, but we are full. We cannot accept any more addresses."

"Then how do I get my mail?"

"Well, you have to fill out a change of address form and then we will determine how you will get your mail."

"I did fill out the form."

"Did you put down Rothschild as your address?"

"Of course I did, we live in Rothschild."

"Well, we cannot take any more addresses, we are full."

The exchange begins to remind me of the old Abbott and Costello "Who's on first" comedy bit. I am beginning to get

frustrated, so I said, "What has happened to all the mail that is no longer being delivered to my Medford address?"

The postal worker replies, "If you filled out a change of address form and you listed Rothschild as your address then we will have it in a bin in our post office. We cannot deliver it because..."

At this point I interrupt and say, "You cannot take any more addresses, correct?"

"That's right."

So I head down to the post office and collect my mail. The post office informs me the neighboring city of Schofield has the ability to take on additional addresses and I should change my address from Rothschild to Schofield. "Your mail should be delivered to you once you do this."

"But I do not live in Schofield."

"It should not matter. They have extra capacity for addresses, we do not."

So, I fill out a change of address form and re-contact our family friends, business contacts and creditors with apologies and our "new" address. For the next two weeks I am forced to pick up mail with our "undeliverable" Rothschild address at the Rothschild post office.

The moral of this story, do not let the bureaucracy of a large organization impact the service provided to the customer. This is an area where patrollers excel. We always take care of those in need of our services. Any complaints stemming from the bureaucracy of a large organization are left in the patrol room and we attend to the customer in need. The satisfaction of helping those in need is our pay; therefore no room for poor service because it robs us of our reward.

Section One Report by Jim Meunier

Jim Meunier
Section One Chief

Summer arrived early this year, with a couple days of record high temperatures in the 90's already. We also had more snow in May than we did in March and April! It's been very dry however, and we really need some rain up here in the north woods.

Because of the lack of spring snow and very warm temperatures in March all ski areas in the section closed early this year. However, the skiing in late February and early March was awesome! It was sunny and warm almost every day and the skiing held up well through mid March. This also helped bring out all the fair weather skiers, resulting in some excellent crowds late in the season.

Indianhead hosted the Senior Evaluation weekend this year. The weather was great, the turnout was excellent and Indianhead did a superb job in hosting the event. Rusty Bluse and Walt Hess did a great job of handling the logistics of getting equipment where it needed to be, coordinating with area management, providing meeting rooms and an after ski social hour for all the participants and helpers that were on hand (about 70+). Chris and Nancy Dobrinski coordinated all the need equipment, and personnel needed for the SEM portion of the event and set up locations for all the scenarios. Chris and Nancy did such a great job; they were asked and have accepted the position of Regional Senior OEC advisor.

Blackjack completed its first season under new management. They had a late start in terms of season ticket sales and marketing efforts, and as a result seemed to have a slower than normal season in terms of skier numbers. However, they plan to be in it for the long run and plan to continue to make improvements, and attract more skiers and boarders. They had very few regular patrollers and could use some additional help. A special thanks to Steve and Cheryl Carr who kept the patrol room staffed during the last two months of the season, with nearly 100 days between the two of them at Blackjack! Not bad for a couple of rookies.

My most special visit this year was at Mt. Ashwabay, near Bayfield. This is a very special local ski area that is very important to the communities of Ashland, Washburn and Bayfield. They now have the ski area served by a double chair lift and got rid of the old t bars. They have an extensive system of Nordic trails and a heavily used tubing park. They also have night skiing on Wednesdays, and NASTAR racing on the weekends. What impressed me most was the involvement and dedication of many of the patrollers. Several are heavily involved in the management of this area, and are instrumental in its success.

Section Two Report by Erick Jensen

Erick Jensen
Section Two Chief

First off, a big Thank You to Martin Olson and crew for another great region meeting and banquet last April. Lots of fun, great courses, rehashing old stories and hearing new ones, my family had fun shopping and playing in the water park. A great weekend, despite our van getting totaled on the way home.

As I sit writing this, I am nursing a knee injury, again. Since the kids are out of school, they are doing a good job taking care of me, except for me getting restless and walking probably more than I should. I have a hard time with the whole concept of driving two blocks instead of walking. Some people said it was too bad I messed up my summer with this, many of my friends, people who know me have said its good that I did not do this in winter and mess up skiing. I know, I can mess up skiing without an injury.

Summertime, the skis are put away and our thoughts turn to . . . OEC. That's right, it is time to get ready for OEC classes, we will have one in the Green Bay Appleton area starting in August, along with others around the regions, and of course we all have refreshers. Jump in, get involved, you don't have to be an OEC instructor to help with a class session, the instructors and students will appreciate the help. Besides loving to teach (it is my profession), it helps me to improve my own skills. You also never know when the 'why do you do it this way?' question will lead to a new and improved technique.

Section Three Report by Martin Olson

Martion Olson
Section Three Chief

Greetings to all. I hope your ski season was great and you are in good health.

We were saddened with the loss of Harry Lauritsen this past season. Harry mentored a lot of patroller and accomplished many task over the years. Harry's love of ski patrolling and the race programs was evident by his involvement with NSP activities and ski racing.

A Section 3 recap of the year includes: I attended the Fall OEC refreshers held at Pine Mountain and Norway Mountain, assisted with the chair evacuation and hill refresher at Hidden Valley, visited with Don and skied at Gladstone, visited with Ralph and Dave at Norway, also got some skiing in and assisted with a patroller refresher as well. I was also able to visit Russ and several patrollers at Pine Mountain. I also assisted with two basic hill evaluations along with patrolling at Navarino. The season wrapped up with Section #3 hosting the Spring Banquet. Attendance was good once again. Our Division Director once again attended the event. Hopefully more of you will attend this next year.

It was good to see several of the Section 3 patrollers this past year when I visited the various ski resorts. I hope to see some more of you next winter. Thank you to those of you that guest patrolled at Hidden Valley. Your couple of days really helps out the smaller ski areas. Please help out Hidden Valley and Navarino with a couple of patrolling shifts.

Navarino will be conducting a OEC class this year. Pine Mountain has a couple of new candidates for an OEC class later this summer.

Keep your personal data on the National web site up to date with address and email address changes. The NSP site offer you the opportunity to email your fellow patrollers in your patrol. This is also how the region sends information to you. If you know of someone who has changed email addresses please remind them as they may not be receiving this reminder.

Have a great summer, hope to ski with you next season.

Again this year there will be an OEC Refresher at Minocqua Winter Park on Sunday, November 7. Don't wait until the last minute. Be sure to contact Betty Adams (see PR of MWP) if you plan to attend. We need to know how many to prepare for. The refresher will be held and you are welcome. The most frequently asked question is: How do you get to MWP?

You should follow these directions for excellent cross country skiing and the OEC refresher. Drive west on Highway 70 from the intersection with Highway 51 in Minocqua. About 6.8 miles west turn left on Squirrel Lake Road. There is a brown Minocqua Winter Park sign on Highway 70 marking the road. About 4.7 miles on Squirrel Lake Road then turn left on Scotchmans Lake Road (it is gravel). There is a large MWP sign on the corner. Go 0.3 of a mile then turn right – again there is a sign. Go 0.2 of a mile then turn left through a gate and continue to the parking lot.

The refresher will start at 9 A.M. and continue until around 4 P.M. The kitchen will be open with a limited selection for lunch or you can bring your own lunch and beverage. There will be a charge for snack bar lunch, but not for the refresher. If you have questions on November 7, call Minocqua Winter Park at 715-356-3309; otherwise, call Betty Adams at 715-588-7731.

OEC Update By Tom Hynes, Region OEC Administrator

Tom Hynes
Region OEC Administrator

The snow melted in May and the ski season ended in April but the patrol season goes on. As first responders outside the organized state and county EMS systems we need to be aware that EMS has been changing. Many of the ambulance/rescue services have upgraded from a basic EMT level providers to services that now can administer IV fluids and prescribed drugs.

What does that mean for patrollers? It means that the ambulance crews will (as before) need as complete a patient SMAPLE history as possible, mechanism of injury (MOI) or onset of illness history, VITAL signs as complete as possible, and access to upper extremities for starting IVs.

Be aware that not all services have updated and that you, the patrol, should have an open conversation with your local ambulance service(s) as to their protocols for providing IVs.

Remember the golden hour of care in trauma? And what it takes to provide care and transportation to a trauma unit? By having the conversation with your local ambulance service(s) and establishing bench mark patient care protocols prior to the ambulance arrival will substantially reduce the on scene times for patient transfers. That said if your local service is

IV certified, we as patrollers can have the patient better prepared for transport by having the necessary clothing off, patient information (vitals and history) readily available when the ambulance arrives.

Also determine who the primary patroller is...the ONE patroller who can provide the first hand information to the ambulance crew.

Better Communication Means Better Service {Patient Care}

Outdoor Emergency Care- UPDATE ... 5th Edition of the OEC Manual

From- Karen Haden- Division OEC Supervisor

"We will be using the 4th edition Outdoor Emergency Care text for the last time. All OEC classes, refreshers and Senior Emergency Management courses starting in 2010 will be using the 4th edition. At the current time, roll out of the 5th edition will take place the first quarter 2011. All OEC Instructor Trainers and OEC Instructors will receive 5th edition updates as soon as the educational material is available (first quarter 2011)."

"The 5th edition meets the needs of the patroller while being appealing to medical professionals. I know you will be im-

pressed with our new text. Thirty to forty authors have been involved in writing the text. The text workbook combination is being written for first time students with outlined objectives in each chapter. These will be the objectives the candidate will need to master to pass the evaluation. The text is a combination of wilderness and urban medicine. There will also be additional information for current patrollers. The last we knew the cost of the 5th edition text/workbook will be \$65 for patrollers. The cost of the instructor manual has not been determined. Instructors will have PowerPoint active links for each chapter as well as access to an interactive web site for patrollers called My NSP Kit."

Once again it's time to start planning your refresher...

Go to NSP web site ... sign and see below...note you can download the Refresher Guide but have to contact Carol Hudson for your Instructor Guide

The 2010 OEC Cycle C Refresher Study Guide is available for download from the Outdoor Emergency Care section of the NSP website. It will also be inserted and mailed in the summer 2010 issue of Ski Patrol Magazine.
