## Region Director's Report

Les Robinson  
Region Director

Here we are in the middle of summer, our many instructors are doing prep work for the fall and upcoming refreshers, the senior OEC trainer/evaluators are working at adding to the pool of qualified trainer/evaluators. What are you working on? Well there is of course the many things of summer to do to keep yourselves in shape for skiing.

If any of you are interested in attending the August 16th-19th meeting of MSA and trade show please talk to your area managers to get an invite with the area to attend there is always very interesting seminars to attend, along with some very good industry related topics. It is on our side of lake Michigan this year at Alpine Valley.

Congratulations to the many award winners at the spring banquet, all the outstanding patrol winners, the COA's, the national appointments, the merit stars, the local winners of the most service to their area, and all the service awards for time being a member of NSP. We did have our share of 40, 45, 50 and over members.

Be looking for the upcoming refresher's, make sure you all make plans early to find one you can attend if yours isn't going to work for you. For more information about other refreshers look to the Central Division website calendar and if you can't find one there, most regions have calendars on their websites. <http://nspcentral.org/calendar.php> here is the link to the website for the Division.

Coming soon is the new NC Region Website which is currently under construction, more to follow on that when it becomes operational.

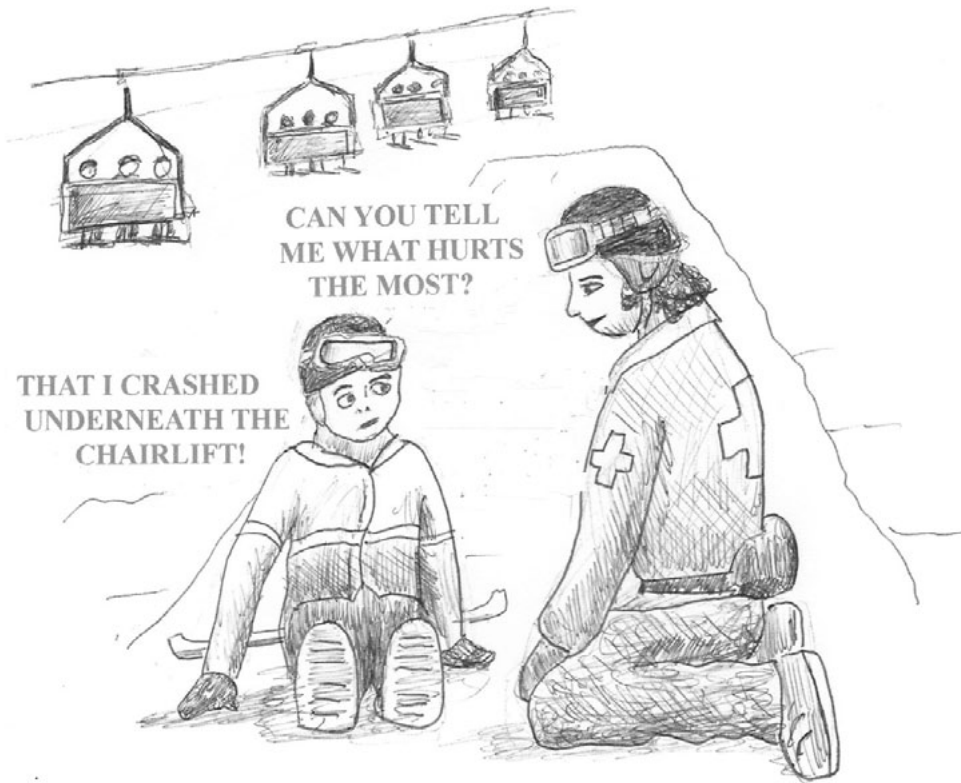

Also this coming winter the Division is changing the format of the ski trainer's workshops, they will only be allowing people to register that are invited from each region. Then we will be running region level workshops for the rest of our region people so be sure to look for those coming this winter.

Lastly I will talk about the NSP board elections, we really need to get our vote to count this year. The last two years our vote totals has dropped here in the Central Division yet we are the second largest division, we cannot keep our interests heard without a voice so please check to make sure that your login works well before the fall voting season. Also think about who around you could make a great board candidate and talk to them.

It's summer. That used to mean I only had to deal with seasonal allergies, lawn mowing and baseball - soccer schedules. Now it also means the former little leaguer, who is now a man-child finds himself home from college with extra time on his hands in spite of a full summer time job.

At one point this summer I reminded him eagles force their young out of the nest at some point without regard to their impending death if they don't manage to fly before hitting the ground. In fact, I think the young one becomes food for the rest of the family if the flying assignment goes poorly. I also told him I think it has less to do with wanting the young birds to fend for themselves as it does the birds getting sick of the young ones spreading their wings all the time in a place that is not their own.

Whether the above analogy is completely accurate or not in the world of ornithology is not a concern of mine. I find the image the story paints quite amusing. Especially when I remind him it is the mommy bird who is becoming most annoyed with the wing spreading.

It may be more than just the wing spreading that causes angst. Now that I think about it he creates a mighty mess wherever he lights for any period of time. In fact, this is the part which weighs most heavily on me. In spite of the mess on the desk I am using while writing this article, I do not care for messes. They slow me down.

When I get slowed down I have less time for the things I enjoy doing: biking, hiking, craft beer tasting, fishing, music, craft beer tasting, hunting, skiing, craft beer tasting, snowshoeing, craftbeer tasting...you get the idea.

The somewhat remarkable aspect is the recreational things I enjoy doing are often interpreted as uninvited wing-spreading of my own. Which reminds me of the annual ski trip I take with the young man. I run the risk of mixing metaphors here so have patience and stay with me. I'll bring it back together.

This past March, while taking a break from shredding the lightly covered slopes of Montana, or perhaps better described as shredding ski bases on lightly covered slopes of Montana, I spied a large framed photo of a young bull elk sticking its tongue out displayed above a table at one of our favorite establishments. As I asked permission of the couple seated at the table to take a photo of the framed piece, they asked me, "Why are you interested in the elk?"

"Because it reminds me of my son."

"How old is your son?"

From immediately behind me the young man says, "I'm his son."

The couple nearly fell off their chairs with laughter. After which they joined me in taking a photo of the elk. I gave them my son's cell phone number and we all implemented the tongue-sticking-out young bull elk as icon for his cell number.

The other day, as I returned from a business trip, tired and lacking energy, the young buck announced he was going to prepare lobster tail dinner for entire family. It was wonderful.

In the world of eagles, I am pretty certain a young one able to deliver lobster to the nest is welcomed back in spite of wing spreading and occasional messiness.

# Special North Central Region 2014 - 2015 Awards Section

By: Brenda Robinson, Awards Administrator

Too often, an act that everyone thinks should earn recognition is quickly forgotten. Don't let a deserving member of your patrol go without recognition." I would like to congratulate everyone of these very, well-deserved patrollers, who have shown their excellence within the NSP! CONGRATULATIONS!

## BRAVO AWARD

This award is given to the individual who has patrolled the most hours at their Ski Area.

ALEX YOUNG, 15 days – Camp 10

BOB SALONEN, 38+days – Ski Brule

RONALD ROLOFF, 58 hours – Nine Mile Forest  
VALERIE STROMQUIST, 71 hours – Minocqua Winter Park  
DONALD POE, 75 hours – Gladstone Sports Park  
HUNTER LOVELAND, 154 hours – Bruce Mound  
MIKE LYNCH, 208 hours - Marquette Mountain  
MIKE MOGAN, 241 hours – Pine Mountain  
JIM SCHULTE, 289 hours - Big Snow Ski Patrol  
DAVID CALLAGHAN, 297 hours- Mont Ripley  
GRIFF WILLIAMS, 307.25 hours – Granite Peak  
VANESSA WATSON, 340 hours – Navarino)  
AMBER WARRICK, – Big Powderhorn Mountain  
CAMERON HOPPER, 200 hours – Mount Bohemia

## BANQUET PARTICIPATION AWARD

## Last Chance OEC Refresher Fall 2015

By: Betty Adams, MWP Patrol Rep

Is it time to start thinking about OEC refresher? Again this year there will be an OEC Refresher at Minocqua Winter Park on Sunday, November 1. Carolyn DeJongh will be Instructor of Record. Don't wait until the last minute. Be sure to contact Carolyn at 715-369-1563 or [cdej@charter.net](mailto:cdej@charter.net) if you plan to attend. This year's refresher will be a Hybrid Refresher. This means you must complete an on-line portion, print a certificate of completion and bring the certificate to the refresher. On November 1 the refresher will be scenarios and skill stations only. NO CERTIFICATE; NO REFRESHER. Details from National are slow in coming this year. We should have details early before end of summer. We need to know if you plan to attend so we can send final details when we know them. Please, this is very important! Also we plan to sell lunch so we need to know how many to prepare for. The refresher will be held and you are welcome. We enjoy providing for everyone. The most frequently asked question is How do you get to MWP?

You should follow these directions for excellent cross country skiing, tubing, snowshoeing and ice skating and the OEC refresher. Drive west on Highway 70 from the intersection with Highway 51 in Minocqua. About 6.8 miles west turn left on Squirrel Lake Road. There is a brown Minocqua Winter Park sign on Highway 70 marking the road. About 4.7 miles on Squirrel Lake Road then turn left on Scotchmans Lake Road (it is gravel). There is a large MWP sign on the corner. Go 0.3 of a mile then turn right – again there is a sign. Go 0.2 of a mile then turn left through a gate and continue to the parking lot. The address is 7543 Squirrel Hill Road, Minocqua, WI 54548. Plan on driving about 30 minutes from the intersection of highways 51 and 70.

## OEC Update

By: Chris Dobrinski, OEC Administrator

Everyone should have received the 2015 OEC Cycle B refresher guide in the mail by now. Some of you may have already finished the work book. Well, if you did, you'll be happy to know that , according to National, the workbook is now a mandatory part of the refresher and SHALL be completed prior to attending either the hands-on portion of the hybrid or the traditional refresher. My first review of the guide suggests that access to the 5th edition will be needed to complete the workbook. I know many of you do not have the book, so call an OEC instructor or your patrol rep, as they were all provided a copy of the 5th ed. by the region, and they may be able to share it with you in the next few weeks.

While the refresher guide is out, National Education is somewhat behind on the Instructor Refresher Guide. This means that most refresher planning will not begin until after July. Refreshers take a lot of planning, and many of the IOR's, IT's and Patrol Reps started thinking about your refresher last ski season. Normally NSP education sends the instructor guides out before the regular patroller refresher guide, but this year they are in the process of changes in both the provider side of the on-line class and the registration side for all of us patrollers. They are attempting to make it easier to register for on-line courses like the hybrid refresher, and easier to navigate the actual course. Please check with the IOR or your patrol rep for an update, and find out if you can start your on-line hybrid course.

There will be major changes in the 6th edition OEC book which is now in the process of being written, but for now we are working under the 5th edition standards and your local area protocols.

Thanks for all your hard work as an OEC Tech and all you do for the area resorts and the ski industry. Staying current as an OEC patroller is a major commitment

## Section Reports

### Section Three Report By: Bruce Iattoni Section Chief

2014/15 ski season is in the history books, ski areas area closed, chairlifts are stopped and the equipment has been put away for another summer. Several of the ski areas had an OK season, however, more natural snow could have made for better conditions.

The Region's spring meeting/awards banquet, held at The Waters in Minocqua was a huge success. Congrats to all the award recipients!!! Now, as we look forward to the 2016 event, I would like to encourage everyone to begin making plans to attend as once again the spring meeting/banquet will be held in April at the same location. If you know of fellow patrollers that you feel go above and beyond their role as a patroller, they may be a good recipient for receiving recognition for all they do. Now is a good time to start with writing up of an award application for that person.

As the summer months are upon us, several patrols will be having their summer picnics and activities. By the time of reading this report, my home ski area, Granite Peak will have had their kayaking and picnic event. This will be my first time ever in a kayak so I am hoping all goes well.

With the months of July and August fast approaching, several ski areas will be holding OEC classes and their instructor crews will be back doing what they love to do, teaching OEC skills to others with the hopes of adding new patrollers to their ski area.

As we get closer to fall, OEC refreshers will be taking place around the area. If you need to find a refresher, most refreshers will be located in our Region's calendar.

Hope everyone is having a Great Summer!!! For me, it is time to hit the golf courses.
