Season Report
For
Nine Mile Forest Ski Patrol

The 2019/2020 season got started this year as soon as the deer gun seasons were finished. Our season started December 15th and closed March 15th with about 2 days of trails closed because of above freezing temps. The first snows were very high in moisture which made a very good base for the winter and did help keep trails skiable almost into April. The trails were still groomed after the chalet was closed for the season.

Some of the events at Nine Mile this season were Sneekevick Classic, Badger State Games, and Special Olympics. These ski events were covered by our patrol and also others that were hosted by the Wausau Nordic Ski Club. The Nine Mile Patrol did a great job covering these events and providing coverage all season for the skiing public.

This season I think we have lost one member and have one that is on the fence for next season. This could put our patrol at three members with a possible fourth for next season. We are always working on possible candidates for the patrol and will continue our effort onward into the next season.

Hope everyone's season went as well. I hope next season has early snow and cold for an early opening with this coronavirus very close to or under control.

Regards,

Steven Konkel
Nine Mile Forest Patrol Rep.
